AMPRO

AMPRO has been developed from the ground up by people who took the time to design a robust, intuitive and user friendly system based on the familiar Microsoft® Outlook® interface. This all helps to minimise the learning process and help your organisation successfully navigate today's difficult business landscape by eliminating errors and redundancy, and improving competitiveness.

AMPRO does not need extensive training programs to implement; the comprehensive Getting Started Guide, User Guide and Online Help will assist in the early days of implementation.

All Industries

Whether you want to maintain a fleet of vehicles or a hotel chain, AMPRO will do this with ease. You may be in charge of all types of assets; this is not a problem with AMPRO.

AMPRO will allow you to set up your assets to best suit your needs. There is no need to follow a rigid process to achieve the required results.

The Microsoft® Outlook® style module bar gives you easy access to all the AMPRO modules.

Modules

- Home
- Assets
- Inventory
- Job Requests
- Jobs
- Recurring Jobs
- Inspections
- Readings

The tree view gives you a listing of the modules along with common filters to easily access your vital information.

View your assets how you want to see them, either in a listing or a hierarchical structure in the tree view.

Record important information about each asset.

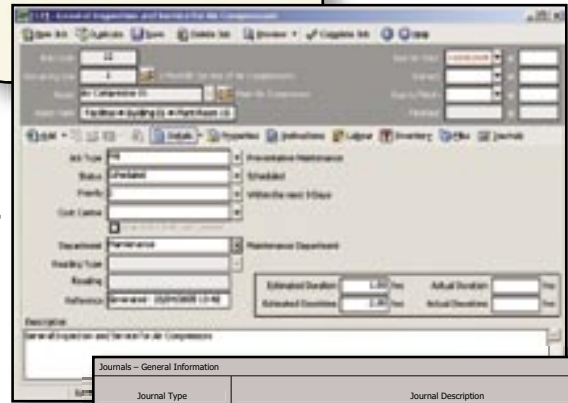

Module Overview

- Register of all Plant and Equipment = ASSETS
- Routine Maintenance Plan = RECURRING JOBS
- Work Order Control = JOBS
- Historical Information = JOURNALS
- Monitor and Maintain Budgets = COST CENTRES
- Spare Parts Control = INVENTORY
- Maintenance/Work Requests = JOB REQUESTS

Plan your routine maintenance quickly and easily.

Jobs are generated and scheduled.

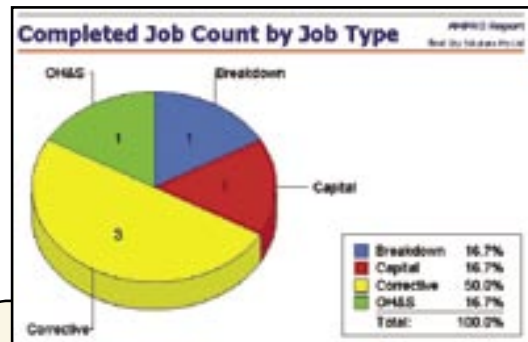

Journal Type	Journal Description
History	Replace the housing and gasket. All looked in good condition. Tested and ran ok.
Recommendation	Increase downtime allocation by 30 minutes as this job is continually taking longer than expected.
Symptom	Vibration and noise during operation.
Cause	Dust and dirt is getting into the plinth.
Solution	Fit new seal to base. This should be carried out each refit.
Note	Have inspected this again since installing new seal and all looks ok.

Comprehensive history about the job.

Useful reports assist in making your important business decisions faster.

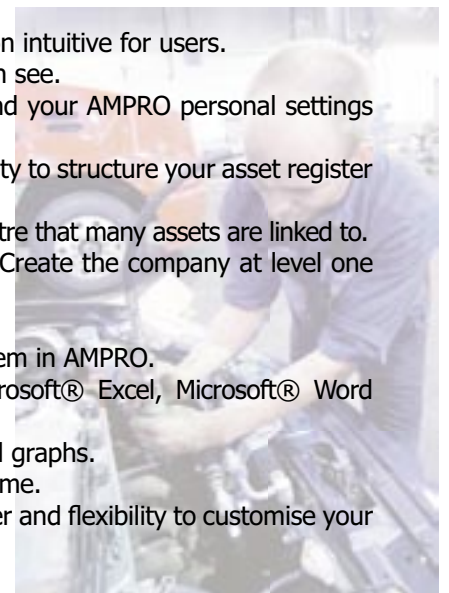

Completed Jobs Summary						AMPRO Report
						Third City Solutions Pty Ltd
Date Finished	Job Code	Job Description	Job Type	Est Duration	Act Duration	
Facilities						
Building 01						
Plant Room 15						
	Air Compressor 01	21/07/2003	7 Replaced the Air Filter Housing	Corrective	1.00	1.50
Totals for : Air Compressor 01					1.00	1.50
Building 02						
Roof Top Plant Room						
	Cooling Tower 01	09/08/2003	4 Carry out a dip slide test and log into Logsheet the results. Compare the results with previous.	OH&S	1.00	1.00
Totals for : Cooling Tower 01					1.00	1.00
Totals for : Facilities					2.00	2.50

Prime Movers						
	Prime Mover 52	03/06/2004	11 Not working - Hard to start in the morning	Corrective	1.00	1.50
Totals for : Prime Mover 52					1.00	1.50

Helpful graphs give you an easy to understand overview of your maintenance operation.

Feature Highlights

- Familiar Microsoft® Outlook® style interface.
- Modules are seamlessly integrated with each other.
- Colour coded modules with the same 'look and feel' throughout makes the application intuitive for users.
- Post messages to a public message board within AMPRO that all users of AMPRO can see.
- Roaming user profiles. Log on to AMPRO using your user name at any computer and your AMPRO personal settings will follow you.
- Option to use up to six levels when creating your asset hierarchy gives you the flexibility to structure your asset register to suit your needs.
- Track costs incurred against an individual asset or track costs incurred against a cost centre that many assets are linked to.
- Option to use up to two levels available when creating your contact hierarchy. E.g. Create the company at level one and the contacts within that company at level two.
- Reports and Graphs:
 - Create your own Crystal Reports™ or Microsoft® Access reports and view them in AMPRO.
 - The ability to export reports in many different formats including PDF, Microsoft® Excel, Microsoft® Word and Rich Text.
 - Each user can have their own favourite's folder for frequently run reports and graphs.
 - Save the report to provide you with a snap shot of the data at that point in time.
- The ability to filter and format the listings and then print them out gives you the power and flexibility to customise your own reports.
- Comprehensive and easy to understand Online Help and User Guide.

Why AMPRO?

Third City Solutions is a Brisbane based Australian company that specialises in maintenance management software. The company is owned and operated by a team who are committed to providing second to none cost effective products that are easy to use.

Third City Solutions is committed to providing software that not only meets the customers' needs but exceeds their expectations. We can promise this as we are committed to ourselves as well as to our customers.

AMPRO has been developed from 25 years experience in maintenance from many industries, including marine, facilities, factory, fleet and mining. AMPRO will fit easily into your working day without you having to change the things that you already do well.

Our consultants have lived and breathed the industry you are in. By selecting AMPRO as your maintenance management software you not only get the solution that will give you peace of mind, but also the access to over 15 years of experience in setting up and implementing Computerised Maintenance Management Systems (CMMS).

The Research and Development department is made up of committed developers who know the importance of staying abreast of the latest developments in software and procedures to bring you the best possible products.

What our customers have to say...

Terry (Compass-Group Australia) – "Right from the word go, I enjoyed using AMPRO. It was easy to start out and got easier the more we used it."

Kelvin (Alinta) – "I knew using a CMMS could be easy. You have done it."

James (HANNANPRINT) - "To manage successfully you need to be well informed. AMPRO gives you the ability to record and manage information easily so that the manager makes the informed decisions."
